CLOVIS, N. M. (UPI) — Retired

Air Force Gen. Jerry Lee, an official of the controversial John Birch Society, has charged in a speech that the recent Cuban invasion was bungled purposely by the Central Intelligence Agency.

Lee charged that the CIA did not notify the Cuban patriots of the invasion attempt but did notify Cuban Dictator Fidel Castro.

"The State Department and the CIA have had traitors in them as far back as World War I and those traitors are still there. They put Castro into Cuba. And Christian Herter is the biggest traitor of them all," Lee charged in a speech Friday.

"Now the same bunch of mule-headed communist Reds are trying to raise money to buy tractors to trade for people," he said.

Lee also called for the impeachment of the whole U. S. Supreme Court.

"We shouldn't impeach just Chief Justice Earl Warren, but should impeach them all," Lee, who is Texas-New Mexico coordinator for the John Birch Society, said.

He said that justices Hugo Black and Felix Frankfurter have voted 100 per cent in favor of the Communists.

He predicted that by the end of

this year the Philippines Islands will turn to Communism and all of those will then be the only place in Asia that is not free.

"I used to worry about my grandchildren coming under Communism but now I'm worried about myself and I'm only 54."

"The only reason the John Birch Society is controversial is because so many ignorant hack writers around the country have been writing about it without opening one page to learn about it," Lee said.
